

22 June 2018

Dear Parents

Hope your family had a good family bonding time this holiday. As we begin a new semester, we would like to update you of the following matters pertaining to student safety and well-being.

Parents' Waiting Areas

To ease the jams at our dismissal points so that our students can leave the school safely, we would be making some changes to the parents' waiting areas starting **Mon, 25 Jun 18**. We seek parents' understanding and cooperation on this matter for the safety of everyone.

- ✓ For **P1 & P2 parents**, you are allowed to enter the school to pick your child. Do note that the gates will only be opened **10 min** before school dismissal at 1.20 pm. Please do not attempt to enter the school between 1.30 pm and 1.40 pm when our students are leaving. Do wait until the human traffic has thinned out before entering.
- ✓ For **P3 to P6 parents**, please wait outside the Main Gate or Rear Gate to pick up your child. Please also ensure that you do not block the exits.
- ✓ During **wet weather**, all parents will be allowed to come into the school and wait at the designated waiting areas from 1.20 pm. However, we appeal to all parents to be considerate to other students and be patient so that everyone can leave school safely.

Road Safety

For parents who send and/or pick up their child to/from school by car, we would like to remind you on the following based on feedback from the neighbouring residents:

- ✓ **Not** to stop your vehicle and allow your child to alight along Anchorvale Link (even though it is just after the school gate in both directions) in the morning as this will affect the heavy traffic during the morning peak hour. More importantly, your child may be at risk of being hit by a motorcyclist or cyclist when your child is alighting from your vehicle.
- ✓ Alight your child safely at the preferred venue at HDB Multi-Storey Carpark at Blk 326 just beside our school. Your child can then use the sheltered walkway (along Sengkang East Way) which connects to the Rear Gate.
- ✓ You are advised **not** to stop your vehicle along Sengkang East Way or the recess area leading to the Power Station and obstruct the flow of traffic along the main road. There were few near misses when cars tried to move off and the oncoming traffic is unable to slow down in time.
- ✓ Parents should refrain from parking their vehicles along any of the service roads in our neighbouring HDB flats and estates, e.g. Blk 332A in front of the school as this would immediately reduce the service roads to a single lane, thereby severely obstructing the flow of traffic along such roads in the morning when the HDB residents head for work in their vehicles. The safety of the residents would also be compromised as a result.

We appeal to your cooperation to closely adhere to the above as we have been getting feedback from concerned residents nearby which may compromise the safety of our students, other pedestrians and road users.

Photography & Videography at School Events

We would like to remind you that photographs and videos of students and parents taken at all school events by our official photographers are for our record and publicity purposes. As such, some of these photographs and videos may be published on the school's official media platforms, e.g. newsletters, school website, etc. and used for briefings, workshops and other educational purposes.

Curriculum Time

Curriculum time during school days is precious and has been set aside for your child to learn the required syllabus content so that he/she is adequately prepared for the various assessments over the terms. Hence, your child is expected to be present during term time. Parents are strongly discouraged from bringing your child out of the school or country unless there are exigencies to attend to. Do also assist to monitor your child regularly and ensures that he/she completes the homework assigned, be it physical worksheets or online assignments on MCOonline, so that he/she has the necessary practice and consolidation of his/her learning.

Snack Break @ 12 noon

To enhance the well-being of our students, a snack break is given to them daily in class so that they can have a small bite to tide them over the school day. Do take note that it is not a must for students to eat during this break as some do not require it. Only dry snacks such as biscuits, sandwiches or fruits are allowed to be consumed in class during this snack break and students are not allowed to go to the school canteen to buy food. Kindly refrain from packing wet food items for your child to consume in class as it will be difficult for them to eat and it may also not be fresh for consumption after a few hours.

More importantly, do strongly discourage your child from consuming unhealthy or junk food such as chips, chocolates and sweets. Simple yet easy to eat snacks with healthier choice symbols will serve the students' needs well. Eating healthily at a young age will go a long way in cultivating healthy lifestyle when they reach adulthood. To provide parents with some suggestions as to what constitute healthy meals and snacks, please click on the following Ministry of Health (MOH) link:

<https://www.healthhub.sg/programmes/55/my-healthy-plate>

Active & Healthy Lifestyle

Even though the semester has started, we hope you could continue to provide opportunities for your child to develop in areas like the sports and the outdoors or to pick up a hobby or new skill. Here are some suggestions for the family to consider:

- ✓ Encourage your child to participate in moderate to vigorous physical activities for about 60 min a day as recommended by HPB.
- ✓ As the P3 students would have completed the SwimSafer Programme, do encourage your child to continue practising the skills that he/she has learnt.
- ✓ Visit the nearest community library weekly and borrow a range of books.
- ✓ Ensure your child cultivates the habit of sleeping and waking up early.

Student Well-Being

Safeguarding the health and well-being of our students is our collective responsibility. At the school level, we will continue to ensure a high level of hygiene to prevent the spread of any viruses. **On your part, we seek your cooperation to seek medical attention for your child should he/she develop flu-like symptoms and keep him/her away from school until he/she has fully recovered.** As a practice, the school conducts its temperature-taking exercise after each long weekend or term break. ***Kindly ensure that your child's thermometer is in working condition and your child has the thermometer in his/her bag every day.***

We would also like to seek your cooperation to send your child to school only **after 7 am and before 7.25 am** so that students have time to settle down before lessons start at 7.30 am sharp. Punctuality is a virtue which we would like to inculcate in our students from young. ***Students not present in class during attendance-taking at 7.30 am will be considered late for school and this will be reflected in the students' report book.***

On behalf of the staff, we wish your child a good start to the term as we all work together to ensure a positive and safe learning environment for them.

Yours sincerely
Mr Kelvin Ho
Vice-Principal
